

2010 Teen Adventure Program for Cancer Survivors

July 7 to July 13

Ages 13-17; *-or-* a 2009/2010 high school senior

15 total participants

Get a taste of adventure during this 7 day/ 6 night program! Meet other teens while rafting and camping along the Salmon River. Hiking, swimming and kayaking along with many other activities are offered with ample time to relax and enjoy nature. No camping or rafting experience required and any fitness level is welcome; activities are customized to accommodate each participant. Teens will learn camping and rafting skills along with cooking over an open fire and in Dutch ovens. Staff includes a licensed professional counselor and a medical professional. The program is free although an application fee of \$50 is required.

The adventure begins in Salmon, Idaho and ends in McCall. The first night is spent in Salmon and the next 6 days on the Salmon River. Program ends on July 13 in McCall. Rafting activities are provided by Wilderness River Outfitters (WRO), a licensed Idaho outfitter, and their staff of professional licensed guides. WRO uses high quality rafting and kayaking equipment and will teach participants how to properly use it. The small group size of 15 allows time to develop lasting relationships and learn new skills.

Register online and download applications at: www.riverdiscovery.org. May 7 deadline for all paperwork and application fees! Registration cannot be guaranteed until paperwork and application fee is received.
